

Timezone

About	HAL Timezone is a low-contrast, weighty serif typeface, aesthetically inspired by early digital fonts, freshly transitioned from the phototype era. A robust text font with high visibility and slightly rounded edges: the upright styles (Regular and Monospaced) are sturdy and durable, while the Italic is more playful and dynamic, reminiscent of classical, antique serif faces, with additional small caps for all three styles, including numerals. No matter the size, task, latitude, or longitude, Timezone never sleeps
